

# EXTREME MATTE

**KLUMPP**  
COATINGS

*... a UV-topcoat with featuring the look & feel of a natural oiled floor!*

## Easy application

- ✓ topcoat with an applied quantity of 4-6 g/m<sup>2</sup>
- ✓ high stability of viscosity (no increase of the viscosity – in all climate zones)
- ✓ no streaking but constant gloss level all-over the width of the roller
- ✓ setup alike standard UV-coating (open-pored finish)
- ✓ no additional roller coaters\*
- ✓ no additional UV-lamps\*

\*compared to a standard application line

## Unique properties

- ✓ gloss effect like uncoated ( 4 sheen at 60° angle)
- ✓ open-pored effect like uncoated
- ✓ warm color effect like natural wood
- ✓ soft and silky feel like natural oil
- ✓ higher chemical resistance compared to oxidative drying oils

**WE ADD  
VALUE TO  
YOUR  
SURFACE**

*The following table makes it clear: EXTREME MATTE performs equal or even superior to standard UV cured coatings!*

Property \ Surface	Klumpp Coatings			
	Extreme Matte	Standard Coating	UV-Oil	Natural Oil
Natural (matte) appearance	++	-	++ oiled look	++ oiled look
Abrasion resistance	++	++	+	-
Chemical resistance	++	++	+	--
Clean & Care	++	++	+	-
Variety of colors	++	++	+	+-

## Selling point

- ✓ EXTREME MATTE provides the look & feel similar to floors finished with oxidative drying natural oils, with the durability and resistance of a full-fledged UV-finish!
